Rice DDGS & Its Benefit

Rice DDGS (Distillers Dried Grains Soluble) has clearly become one of the most effective and efficient way of feeding the livestock. It is a by-product of the ethanol production process. The nutrient rich product acts as both protein and energy supplement. Here we have listed certain benefits of Rice DDGS to the livestock.

- *Easy to digest for the livestock.*
- *Enhances egg yolk's quality.*
- *Increases productivity of the livestock.*
- *Gives better immunity against several diseases.*
- *Being a protein rich diet, it provides higher energy and longer life to livestock.*
- *Helps in healthy growth of the animals as it is a good source of oil.*
